ワイドKCアフタヌーン

Dr. Kishiwada's Scientific Affection

A genius scientist who has mastered such a full control of universal scientific powers that he can even manufacture a Big Bang. But he has sold his soul to a devil called Science and spends his life on mad and menacing inventions. People call him Dr. Kishiwada.

TONY TAKEZAKI

TONY'S TALK

"Genius"...Ah, it has such a sweet and noble ring to it. In every age and in every country there have been people known as "geniuses." Because of their tremendous abilities some were branded heretics. Treated with a mixture of awe and respect, they achieved great things.

What are geniuses? How do their brains work? What about their nervous systems? Their muscles? Their internal organs?

The questions never stop. This book is a study of the life of one of those "geniuses", Dr. Kishiwada. Read it! And then please buy it if you can!

事からの間に客観的なきまりや原理を見いだし、全体を体系的に組織し、説明するための

かがく【科学】Science:

to observation, assay and experimentation to determine and describe the nature or principles of what is being studied

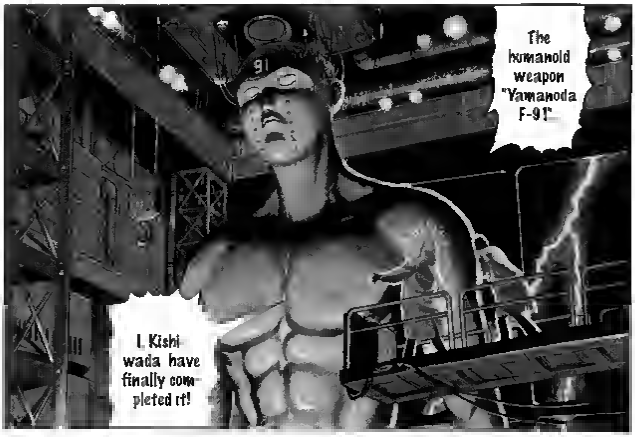
God. Please forgive me for selling my soul to the demon known as science!
CLANK
GENIUS INVENTOR DR. KISHIMADA'S LABORATORY

Open your eyes!
Now awaken, accursed child!

Success! You finally did it, Doctor!
I did it! He opened his eyes!

Open them, you fool!
Open them!

Oh!



The humanoid weapon "Yamanoda F-91"
I, Kishiwada, have finally completed it!

Doctor! Is it finally finished?
Owww!
Aaah! My roots!
Ah!

I have finally completed it!
The accursed child of the devil! The strongest giant weapon on earth!

Very, very nice!
Ohh, that's good!
Now we can carry out Operation 7 Days of Fire!
It's the director of the Defense Agency! And his secretary, Miss Melon!
Have you done it!? I knew it, you really are a genius!

He'll burn up their planes with 2000 degree flames!
He'll trample the enemy tanks into dust!
And then, a smile of victory!
He'll destroy the whole enemy country!
Now we can put an end to this cold war!
This is wonderful! You're a genius!
No one will ever suspect he's our weapon!
Plus he looks just like a regular human so he won't stand out!
Direc-tor!
Let's start..
Well, if we don't put pants on him he might stand out a bit

3×3=9
あぁうぅうぅん
He can't even multiply!
He's a moron!
He's dumb!
This guy is really dumb!
That's the truth!
Well said, Yasukuni-kun!
Is that so?
Right? See?
Being a little dumb makes him more convincing as a human!
Ah!
もやぼやっ
Aaah, I can just imagine him, sitting on top of a mountain of enemy corpses in only his briefs!
ゴーン
Okay, we're set! As soon as you put some briefs on him we're starting the operation!
Professor... Why do you look so lonely sometimes?
Is something bothering you that you can't tell even me, your assistant of 25 years?
Phew

Yamanoda! It's a fine day out but the wind is strong!
Change into your flying form! Switch on!
Oh!
Burn the enemy country to a crisp!
Now go, Yamanoda F-9!!

Spirit's Manga Translations

Maybe his heart was too much like a human. That's why mechanical navigational calculations didn't work.
4×9=34
8×8=74
Yamanoda...
Doctor Kishiwada...
I guess the human heart just isn't suited for war...don't you agree, Director?
Director
Hm.
But maybe that's a good thing.
This happened because you taught him how to multiply wrong, didn't it!?
Hey! Hold it!
Yes Doctor!
Let's go Yasukawa-kun. More research awaits us.
6×5=52
What I think... is that you were really bad at multiplication as a kid! Right?
Right? Hey!

END OF CHAPTER 1
